THE subscriber would respectfully give notice to his friends and the public that he has taken a lease of the spacious and elegant building on the corner of Wall and Water streets and opened the same as a Hotel. It has been fitted up in a style—contains several fine suites of rooms, parlors and chambers—and altogether will compare favorably with any hotel in Maine. Its location is central and convenient for persons visiting the city on business and for those intending to take the steamers, being near the steamboat landing, and a faithful Ostler always in attendance.

DR. CUMMINGS's Compound Extract of Sarsaparilla and Dock.

THIS articles above named are the principal ingredients of his remedies. With them other of vegetable or gums are combined designed to render them more active, and consequently more immediately effectual.

The Dock, or rather a species of it, now ranks as a medicine that stands to assist of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he commenced the use of a new article which has resulted in the production of the compound with the ingredients are found to act in harmony and to possess many of the qualities which they separately possess.

A larger amount of Sarsaparilla is usually than has generally been supposed. The extract must be relied on and less liable to loss in preparation by subjecting the root to the action of the menstrua usually employed in extracting its virtues for a long time without heat or any other accelerating agent. None is permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Syphilis, Ulcerous affections, Eruptions and Mercurial diseases. Also for the sum remedials arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtaking the physical powers and other abuses of the nervous system among which are Neuralgia, Pains, Aches on the Liver Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor became familiar in his practice in Havana some years since, the compound will prove particularly efficacious, both as a remedy and preventative.

This medicine has been for some time in use in this city, where the proprietor has practised nearly half a century of his previous healing. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general to whom he is known.

Prepared only by Dr. Stephen Cummings and sold at wholesale and retail by Jo hua Bacon & Co No 143 Middle street and Edward Mason, No 163 Middle street—only agents for Portland.

TESTED BY THE EXPERIENCE OF THOUSANDS FOR 20 YEARS PAST

The Vegetable Pulmonary Balsam

Has proved itself the most REMEDIAL AGENT known for *Coughs Colds Consumptions, Asthma Pitting Spitting of Blood, Whooping Cough and all Pulmonary Affections and diseases of the Lungs* to which, and can be shown from the testimony of the most respectable Physicians and others who am entitled to the most unquestionable belief. After having tried the many new preparations, without finding the expected relief numbers are compelled to resort to the use of the VEGETABLE PULMONARY BALSAM, which they acknowledge to be after all the best remedy known for the above complaints!

Beware of Counterfeits and Imitations, such as *Oysters Compound Pulmonary Balsam—Lime tree Pulmonary Balsam* and others in part bearing the name. Inquire for the article by its whole name, the

"VEGETABLE PULMONARY BALSAM"

CONSUMPTION

AND AFFECTION OF THE LIVER,

CURED

Of Twenty Years Standing!

City of New York, July 31st 1847

This is to Certify that I Nelson Larrabee, of Jersey City, have been subject to a distressing cough and pain in the side and chest, attended with night sweats and general weakness of the system for upwards of twenty years, and pronounced INCURABLE CONSUMPTIVE, neither the advice of regular physicians nor the many patent preparations I took afforded any permanent benefit, and I was finally compelled to yield to the progress of my disease, when I was persuaded to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, a few of which relieved my symptoms, and have restored me to health and strength, more than I have ever enjoyed before, and I feel confident that any person using the above medicine will be benefited.

Impelled with a wish to do good to my fellow men, I make this statement, hoping that others may be induced to try the same remedy.

INFLAMMATION OF THE LUNGS

New York June 19 1847

Dr VONDERSMITH—I have been subject to a cough and pain in the chest a great part of the last four or five years and. About four months ago I took a severe cold which settled on my lungs. I was unable to sit and I was frequently during the day. I had used spirits that I thought I could not possibly survive another night. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, should I give the full particulars of my case it would be almost incredible. I was recommended to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I used it about one week, my cough decreased considerable, which gave me great hopes. I continued using the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years until the present time. I sincerely believe that had I not made use of Dr. V's invaluable medicine that I would be numbering in the list of graves. The reason I believe that I am alive at this present time, to state to the above facts, so that you may show it to all the afflicted who may call upon you to ascertain from them. I shall be pleased at any time to correspond with the afflicted who may call upon me.

Yours respectfully JOHN SMITH

CONSUMPTION

STATEN ISLAND June 10th, 1847

DEAR SIR—I take great pleasure in giving you my experience. Last December I was attacked with a severe cough, ran down in flesh, loss of appetite and complained very much when and pain in my breast. Some days I used to spit a half pint of mucous streaked with blood. I took your and the treatment of three physicians, was recommended by Dr. Mott of Philadelphia, to obtain a bottle of yours. I procured one, I only made use of it for one week, it was the cause of bringing on expectoration of the lungs which relieved me so much that I was unable to eat up, my cough was entirely destroyed it would then for persons to understand me I gave Dr Vondersmith a trial given me relief very strong by my pen can when in bed could I sent for half a dozen bottles I received great benefit from them, and induced me to purchase a dozen bottles. I took one pill to the bed system and I relieved me perfectly sound Yours &c,

MUNICIPAL ELECTION.

Great Whig Victory

Election of Mayor, and a majority in both branches of the City Council.

The municipal election took place in this city yesterday, and resulted gloriously for the Whig cause This is the first charter election for three years when the issue has been plated upon political grounds, and the result cannot but be satisfactory to the Whigs, as their candidate for Mayor has received a large majority of votes, sweeping every ward in the city, except one as will be seen by the accompanying table.

This is the first gun for the season, or as Judge Cushman said at the late caucus, the opening ball for the Presidential campaign This Whigs may well be satisfied with this for a beginning and should now go forward and perfect their organization for the State and the Presidential contest

WILLIAM ABBOTT Esq

the Whig candidate elected by 536 majority

The Whigs have elected their Aldermen in the First, Second, Third, Fourth, Sixth, and Seventh wards In the first ward, I suppose there was no declaration of the vote for Alderman but the Whig was elected beyond all question and we therefore add his name to the list

In the fifth ward an independent candidate was elected over the regular Whig nominee — He was sustained, on a democratic basis and carried in by a handsome majority on personal and special issues

The following are the Ward officers elected other than Whigs being omitted

STEPHEN GIRARD.

Stephen Girard, "Mariner and Merchant" as he styles himself in his will, was born, at Bordeaux in France on the 20th day of May 1750 Very little is known of his early life, and his education, from what cause cannot now be known, is supposed to have been meagre and defective We first hear of him at the age of about fourteen as the capacity of cabin boy on a vessel trading between the West India Islands and the United States, whither no doubt, a spirit of enterprise, and love of adventure had brought him He continued in this business until he attained the adoption of mate, in which capacity he first arrived in this country, at the port of New York probably about the year 1775. From New York he removed into New Jersey, and was for sometime settled at Mount Holly, when the American army were stationed there Here he kept a small store and manufactured segars a trade which he had probably acquired in some of the West India Islands.

Mr Girard settled in Philadelphia about the year 1779 (in 1781) he inhabited a small frame tenement on the site of that elegant brick mansion in which he died — in which were erected a range of wooden stores At this period his commerce was confined to old iron and old rigging He then had no ship or vessel of any description He was a poor man —obscure, little known, and unnoticed

Perhaps the first business Mr Girard engaged in upon his coming to Philadelphia was that of an aquatic pedlar up and down the borders of the Delaware as far as Trenton, supplying the neighboring farmers with groceries and ready made clothing for money and produce — This trade he pursued in a small boat, returning every fortnight or three weeks for a fresh supply In acquaintance he had contracted with the farmers whilst keeping store at Mount Holly, and no doubt suggested as it afterwards fell out, the exchanges of products Immediately prior to the expiration of the charter of the old bank of the United States 1810 and 1811, Mr Girard upon deposits together with George Simpson, Esq, who calculated upon the renewal of the charter, had instructed the Messrs Baring, of London, to purchase for him a large amount of the stock of the Bank of the United States which they accordingly did, to the net value of one million two hundred thousand dollars under the expectation of the renewal of the charter and a consequent realization of immense profits Disappointed in this object, he set himself to establish a private bank under the super-intendance of the late George Simpson the Cashier of that institution, to whom he chiefly confided its transactions, confining himself with the mere approval of the discounting transactions This was in 1812, after which time the capital of the Bank was augmented to five millions A more useful and liberal application of his surplus capital to the wants of the mercantile community at that peculiar crisis and at the common rate of interest, could not have been well imagined His bank conducted on liberal principles, realized profits to himself, and unquestionably to the public The capital of the old bank of the United States had then just been abstracted from circulation and Mr Girard at once determined went far to arrest bank ruptcies ease the money market, and restore public confidence and credit, by wonted elasticity

Mr Girard became a heavy subscriber to the late or last bank of the U States, in the management of which he was for many years active and efficient; always on the side of sound principles and firmly opposed to its measures during the era of the speculation in its stock At the time of its institution he had government deposites to the amount of one million of dollars, in his bank, which were paid into the vaults of the new institution, with great rapidity, and so efficiently in the form of specie as to contribute essentially to the restoration of the currency to its ancient metallic soundness In a very short time he brought the Bank of the United States into his debt, and with very few exceptions ever after kept it so Few of the monied institutions of the country could have accomplished so much as this opulent banker, to ask the government to produce the resumption of specie payments

Although opposed to the system of speculation in the stock of the bank of the United States, Mr Girard could not fail to profit by the public delirium that it had excited By the stock he sold at that period, he gained a clear half million of dollars, which it commanded 150 to 160 advance still retaining a share in the stock greater than that of any other individual in the country

Mr Girard like all men have an unequaled great wealth, commenced the world with small beginnings At first a cabin boy, then a mate of a vessel, afterwards a shop keeper, selling segars and groceries, then keeper of a small tavern or store in Water street, where he bottled claret, and continued the manufacture of segars — Stephen Girard subsequently came to the rank of the first merchant, and he might point to banker in the country, stimulated by persevering industry, and unremitting in his efforts to attain an independency though long poor, and disappointed in life, his motto industry and frugality at last triumphed

With Mr Girard, business was a passion and its greatest pleasure, and, like all men who devote themselves with enthusiasm to any pursuit, and who are gifted with a genius in their profession he finally succeeded in realizing a fortune with an example in the history of trade which the ardent and desirable condition of his early life is taken into consideration

Mr Girard's understanding, in point of intellectual power, was certainly one of the first order His thought vivid and thought profoundly—but as out on the case with the strongest minds, the train of reflection was frequently apt to digress in eccentric orbit Yet in the ordinary affairs of business he was, for that very reason none correct in his conclusions more fortunate than the regular trained speculators of the day. His principles bias of character was anticipation. He had the third topics which others were only beginning to think of them; and the common observer was often astonished to find, the visitor he thought he was communicating a secret to Mr Girard was a matter quite familiar to him, and this on the strength of it he was already employed in landing a ship, or proceeding a speculation

Mr Girard, in person, was of about frame, about five feet six inches in height. His manners were plain, and being generally engaged by his numerous avocations, he was impatient of all conversation except what related to his pursuits on hand In his mode of living he was plain, simple, and void of ostentation The routine of high life never had charms to withdraw him from his early habits of simplicity, even in the zenith of his fortune His recreation was business—he knew no other pleasure, and labor was to him delight He was particularly fond of working on his farm, and he out worked all the laborers he employed At the very close of life, he allowed himself no respite from business, never dreamed of retiring, but in the words of our great dramatic poet, adopted to his own principles he may be said to have

"Died with harness on his back"

His decease took place on the 28th day of December A D 1831 He left several relations all of whom are remembered in his will, but no children

Beautiful Present.

We were shown, on Monday a truly beautiful and appropriate gift designed to be presented, by the City Councils to the Hon Henry Clay, upon his return from New York It is a bell cast from the filings of the Independence Bell, and very tastefully and highly finished — upon the handle is a silver plate, bearing the inscription,

Cast from the filings of Independence Bell,

while upon one side of the bell itself, are the words

PRESENTED

By the City Councils of the City of

PHILADELPHIA

and on the reverse, the words—

HON. HENRY CLAY,
March 4, 1848

The bell is about three inches in diameter at the mouth, and from the mouth to the end of the handle, about 7 inches The handle is of screw cut, and the whole tastefully finished It is a beautiful and appropriate present, and will be highly valued by Mr Clay A letter was addressed him yesterday requesting him to fix a time for the presentation, which will be immediately upon his return from New York, as he will then remain in the city but a short time It is but just to add, that the filings from the bell were made by Mr Eckels, the Superintendent of Independence Hall and by him presented to Mr Ritchie, member of Councils — Philadelphia Inquirer

From Mayaguez, P. R.

Capt Matthews, of the brig Washington, just arrived at Boston, from the W Indies, states that a number loaded sugar touched at Mayaguez for a market, and on landing on the wharf with the schooner's boat, the Captain and his crew were put under a guard of soldiers and moored to a buoy in the bay, kept in the boat all day with not water or food, and not permitted to return to their vessel until the U States Consul interfered It appeared that they had transgressed the quarantine laws. The W had experienced very severe weather, having split her sails, lost boat, and received other damage

Mrs. John Quincy Adams.

Mrs Adams was born in England on the 11th of Feb 1775 She was the daughter of Joshua Johnson, a Maryland gentleman, who went from America to London where he became a merchant and married During the war he left England for France, where he acted as a commercial agent of that country, and returned upon the ratification of the treaty of peace Mr Adams found his future wife at London, when acting under a commission conferred upon him by Gen Washington, in 1794, for exchanging the ratifications made under the Treaty of November of that year Mrs A was married at All Hallows Church, London, on the 26th of June 1797 and followed her husband to Prussia, where Mrs A was presented as the first American Minister from the United States Mrs Adams conferred honor upon the country at a time when the United States was recognized as an equal among the nations of the earth Her next theatre of service was in Washington, and after that again at the Court of St Petersburg, and thus from 1809 to 1814, the most exciting, and perhaps the most revolutionary period in the history of Europe, and embracing a part of that interesting period of our own history when the country was at war with England Mr Adams resided longer at St Petersburg than any one of our American Ministers excepting Mr Middleton and his lady was it there for a brief period while her husband was called to an other field of service Mrs A came alone from St Petersburg to Paris, after the treaty of peace had been signed by Mr A at Ghent She was at Paris during the most memorable period of Napoleon's supremacy, and passed the world wide thundered days at the Tuileries metropolis, in the midst of the whirl of excitement incident to the struggle between the Bourbons and the Revolutionists After a short residence at France, she followed by a longer one with her parents near London Mrs Adams came to Washington in 1817 where her husband had been called as the principal member of Mr Monroe's Cabinet Eight years as Secretary of State four in the White House, and fifty one years the companion of the distinguished husband Mrs Adams has seen more of Courts life, and that in every variety, from the boastful ostentation of royalty to the simplicity of our own republican habits, than perhaps any living woman — Washington Cor Pittsburg Gaz

New Stage Line.

We are pleased to learn that measures are being taken, by some of our citizens and others upon the route to establish a new and splendid Stage Line between this place and Moose Head Lake The is an excellent movement, and will, we doubt not, prove, in the end, a profitable investment to the stockholders

Moose Head Lake is fast becoming a place of fashionable resort during the summer months especially, and it is believed, with better facilities for travelling, that the number of visiters to that place would be greatly increased The nearest and most pleasant route to the Lake from the west would be by this new stage It will pass through the towns of Corinville, Athens Brighton, Kingsberry, Blanchard, and Greenville —[Skowhegan Press

Chloroform Again.

Miss Nagel, sister in law of Mr Kohlsaat, of Broadway, was put under the influence of this anæsthetic agent by a dentist for the purpose of extracting a tooth she lay lifeless for several hours, and was carried home in a state of insensibility

The wife of a respectable carpenter in Jersey City, was, on Thursday last, delivered of a fine healthy boy, who, although perfect and beautiful in form and feature, presented the most extraordinary spectacle, of a head, bright, in lieu of hair, was covered with feathers, resembling those of a downy bird The mother and child are both doing well

Parting of the Widow's Son.

BY MRS L M SHOUVERY.

Two slender boys his bark has launch'd
On life's deceitful tide;
Husbandry years of childhood o'er,
He gains with a gentle
Amid the stir and strife of men,
His devious course to run,
The tempter and the snares to shun—
God bless the widow's son.

He turneth from the pleasant door,
And from the garden fair,
Where with his little spade he wrought,
Beneath a mother's care—
He bears his head like manhood high,
Yet tears their course will run,
When on the stranger bed he rests—
God bless the widow's son

Ye say he goeth forth alone,
To dare the eventful field—
No! No! a spell is round him thrown,
More firm than diamond shield—
A mournful mother's fervent prayer!
Sin, toil and life is done,
Toil time, and toil, and change are o'er—
God bless the widow's son

Caution.—*Wright's Indian Vegetable Pills* are a certain cure for the painful malady because they purge from the body those morbid humors, which are the cause but only of Gout and Rheumatism, but of every ache and pain we suffer From four to eight of said Indian Vegetable Pills taken every night on going to bed, or if the pain is severe, night and morning will in a short time, render a perfect cure of the most violent attack either of Rheumatism or Gout, at the same time the blood and other fluids will be so completely purified, that pain of every description will be entirely driven from the body

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State

FROM THE OLD DOMINION

Waynesborough Augusta county Va., March 19, 1847

Dr Fowle

During the past year, my daughter was sick with a fever which left her in a low and feeble state, she then was attacked with a most violent and severe cough, raised daily large quantities of very bad corrupted matter accompanied with considerable blood She was afflicted with great pain in the side and breast—this continued for several months until she was reduced almost to a skeleton During this time she was under the care of good and skilful physicians, who done their best but did not remove the symptoms which appeared to be fatal Consumption and which threatened every day to carry her off At last a friend who had been afflicted with a very bad cough for several years, told me he was effectually cured with Dr Wistar's Balsam of wild Cherry, and recommended my daughter to try it. She did so and when she had taken a single bottle she began, to improve I then told her physician that my daughter was using Wistar's Balsam. He replied very well I think a good preparation—keep on, it will not hurt her,—she continued to use it until she was restored to good health I believe it saved my daughter's life, and do not hesitate to recommend others who are afflicted as my daughter was to try it.

A CURE OF HOOP AND HIVE

Philadelphia, Jan 5th, 1846.

Dr. D. Jayne,—Dear Sir—Justice compels me to make the following statement of the extraordinary effect of your valuable medicine—the ALTERATIVE

I certify that my wife was afflicted for fourteen years, during which time her disease baffled the skill of several eminent Physicians and after finding that every one that were used failed to relieve her I concluded to place her in the Pennsylvania Hospital, hoping that the care and treatment she would there receive from the Physicians in that institution she might again be restored to health But to my great disappointment, she grew worse, and became entirely deranged in her mind, and I was obliged to take her home again INCURABLE and BEREFT OF REASON I will here mention that at this time the more prominent symptoms of her disease were Dyspepsia and Liver complaint attended with sickness of the stomach, and vomiting of a very offensive fluid mucus, pains in her head back and stomach, and in the region of the heart, with violent attacks of Colic, a dreadful cough from large quantities of phlegm in her throat, which kept her continually gagging and retching to throw it up. She had no appetite, and was very weak She also suffered very much from a nervous disease by which she was confined to her bed. Add to all this above, the deranged state of her mind (which at this time was truly awful) and you will be able to form some idea of her situation.

By the advice of a friend we commenced giving her your ALTERATIVE in the doses of a teaspoonful three times a day and found that it helped her We also gave your *Panacea* to increase her appetite, and the *Sanative Pills* to regulate her bowels. She had not taken two bottles of the Alterative before it operated upon her in a most desirable manner, filling her face with small red pimples and caused her to expectorate large quantities of corruption, before which, her breath was so offensive we could not remain in the room with her unless the doors were open Finding the ALTERATIVE doing her so much good we increased the dose according to the directions, and she continued to improve daily until finally she was restored to health as many, as well as herself

I hope you will delay no time in laying this before the public as I am willing to be questioned at any time to the truth of the above statement, and that it was your ALTERATIVE which cured her. SAMUEL FIELDS.

Chloroform Toothache Drops.

It is well known that "CHLOROFORM" has superseded (in a great measure) the use of Opium as a stupefier of pain, and is now used by the best Surgeons and Dentists in preference A Celebrated Chemist (and one of the first manufacturers of Chloroform) has discovered that Chloroform with other simple ingredients will instantly cure the TOOTHACHE After testing it in many cases it has never failed to give relief; there is no possible danger in using it, as it will not injure the sound teeth a particle All that is necessary in using these Drops is to saturate well a bit of cotton or lint, and place it in the cavity of the tooth Relief will be immediate.

Patent Mill Wheels.

Tinney's Patent
Two Vein Cast Iron Water Wheels,
—for—
SAW MILLS,

Invented by T. R. Tinney of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular
SAW MILL WHEELS
in use at the present time and they can confidently recommend them with the same head and quantity of water applied as possessing and combining more *Strength and Speed* and giving a more *uniform* and *Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run *longer* and *Stay open Longer* under a low head than any other Wheel in use.
Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel
Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to
Valentine's Patent
Reversible Centrifugal Water Wheel,
—FOR—
"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use we feel confident in recommending them as containing more advantages than any other Wheel for perpendicular Shafts now used.
As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A BEARD Esq *Civil Engineer*—Lowell Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country

"The wheel is formed with curved floats the number depending upon the size and vent of the Wheel each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly *perpendicularly* from the Wheel The Wheel is inclosed in a cylindrical wooden curb or flume in which the water stands at rest all round the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel which obstand perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is saved and so much of the power saved which in the ordinary mode of operation is wholly lost
This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it provided the head is in a freshet as fast as the back water But a Wheel with the jets rightly guarded for a high head will not answer for a low one, and vice versa for as the head increases, the width of the jets should be proportionally decreased so that the water may not waste, and not give its best effect to the Wheel
"In point of power the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless is less liable to need repairs, more accessible when they are needed costs much less in the outlay is much more durable, and takes very much less room in a mill or shop—Simplicity of structure durability of parts convenience of application and excellence of power are the grand points of recommendation for this Wheel
ITH. MARA BEARD *Civil Engineer*"

☞ All of the above Wheels with all the LATEST and most IMPROVED patterns of
Mill Gearing, Machinery, &c, Shingle, Clapboard, Sapping, Lath and Box Machines,

RE-PUBLICATION OF
The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
AND
Blackwood's Edinburgh Magazine

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals—Blackwood's Magazine being an exact *fac simile* of the Edinburgh edition
They embrace the views of the three great parties in England—Tory, Whig and Radical—Blackwood and the 'London Quarterly' are Tory, the 'Edinburgh Review' Whig, and the Westminster Review Radical The North British Review is more of a religious character, having been originally edited by Dr Chalmers, and now, since his death, being conducted by his son-in-law, Dr Hanna associated with Sir David Brewster In literary character is of the very highest order

Prices for 1848 *(if subscribed for early)*

For any one of the four Reviews,	$3 00 per ann
For any two, do	5 00 do
For any three, do	7 00 do
For all four of the Reviews	8 00 do
For Blackwood's Magazine,	3 00 do
For Blackwood and three Reviews,	9 00 do
For Blackwood and the four Reviews,	10 00 do

Payment to be made in all cases in advance

CLUBBING
Four copies of any or all of the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis

EARLY COPIES.
A late arrangement with the British publishers of Blackwood's Magazine secures to us early sheets of that work by which we shall be able to place the entire number in the hands of subscribers before any portion of it can be reprinted in any of the American Journals For this and other advantages secured to our subscribers we pay so large a consideration that we may be compelled to raise the price of the Magazine Therefore we repeat *subscribe early while the price is low!*
Remittances and communications should be always addressed, post paid or franked, to the publishers,

Permanent Cure of Dyspepsia and habitual Costiveness.

To Dr Ralph

DEAR SIR—I have myself almost on occasion for your inestimable Pills I have used them any six years as occasion dictated, and I have reason to suppose they have wrought a thorough and permanent change in respect to the functions of the stomach From habitual costiveness and the vending of numerous sedentary stools, I am completely relieved. The multiferious symptoms of Dyspepsia, with which, I was once too well acquainted, have so entirely passed away, that I hardly know wh t they were Any use you can make of this, or a more full disclosure of my case, is at your service
Except as an obstetric case your book (Family Physician) and Pills have been the only physician in my house for six years
I here are many of my friends around, and more and more who call for your Pills as a family medicine and for chronic cases Yours truly

Vegetable Internal Remedy

FOR THE PILES!

A Cure for Life Secured.

For the cure of Piles Inflammation of the Liver and other Inflammations, Soreness of Ulceration of the Stomach Bad Colds, Kidney and Bladder Complaints Rheumatism and Mercurial Rheumatism Impurity of Blood Weakness and Lowness from Fever Spasms and for the relief of Worried Ladies

THE MOST PERFECT REMEDIARY

Invented by Dr A Upham, a distinguished Physician of New York city is the only really successful cure for the Piles ever discovered, this fact is proved by more than a thousand living witnesses, who have been cured by it, and are now living in this city, and can be seen at the office of the Agent for this State, and the Proprietor, 2 Tremont Row, Boston.

Much has been said in praise of Dr Upham's Vegetable Internal Remedy for the Piles, and well may it be so spoken of, for it is truly a wonderful cure for this distressing complaint, this fact is well known to many in this city, and in every section of the country where it has been introduced.

Many have been cured of the most distressing cases of Piles, and have given certificates to that effect, which can be seen at the office of the Agent for this State, and the Proprietor, 2 Tremont Row, Boston
